

# **INTERIM REPORT JANUARY-MARCH 2007**

In Q1 2007, Tele2's EBITDA increased by 22 percent to SEK 1.5 Billion with mobile revenues up 29 percent to SEK 5.2 Billion

- > Operating revenue for Q1 2007 grew by 5 percent to SEK 12,837 (12,243) million
- > EBITDA in Q1 2007 increased by 22 percent to SEK 1,488 (1,221) million
- > Net profit/loss for Q1 2007 amounted to SEK 82 (143) million
- > Earnings per share, after dilution, for Q1 2007 amounted to SEK 0.28 (0.40)
- > Mobile revenues in Q1 2007 increased by 29 percent to SEK 5.2 billion

> Continued excellent performance in Russian mobile operations with revenues and EBITDA in Q1 2007 both growing strongly. Russia now has a customer base in excess of 7.1 million.

> Strong broadband intake during Q1 2007, adding a total of 254,000 new broadband customers

> Fixed telephony EBITDA margin improved to 14 (11) percent in Q1 2007

All figures relate to Tele2's continuing operations
The figures shown in parentheses correspond to the comparable periods in 2006.

### IN A STAGE OF FOCUS

"We are in a stage of focus. During 2007, we expect to see the majority of our revenue being generated within our own infrastructure based mobile and broadband services, as a result of our shift in focus from resold fixed line telephony to our own infrastructure based services. These services have grown to 41 percent of group sales in Q1 2007 from 32 percent in Q1 2006 and the trend will be accelerated as a result of our current strategic review.

Our operational results, with EBITDA growing 22 percent year on year, show that our increased focus on mobile and broadband services continues to pay off...

Our operational results, with EBITDA growing 22 percent year on year, show that our increased focus on mobile and broadband services conti-

nues to pay off and that our investments in infrastructure lead to higher margins for Tele2. To be able to defend our higher investment levels, overall profitability must improve.

Our **MOBILE** operations in the Baltic region and Russia continue to show healthy operational performance. Strong net customer intake, despite tough competition, is combined with good margin development. This quarter, I am especially pleased with our development in the Nordic market area, which shows that there is still growth potential in the mobile segment.

Our **BROADBAND** business continued to produce impressive net customer intake numbers, with 254,000 new customers in Q1. Southern Europe represents the majority of our new broadband customers, and I am particularly pleased with the continued strong intake in Italy. Scale is important, and we are getting closer to critical mass in geographies with a sound potential for growth and profitability.

FIXED LINE EBITDA margins improved during the quarter. However, we experienced a higher level of competition from primarily mobile operators leading to a larger net customer outflow and stronger ARPU decline than expected. As we have pointed out earlier, it continues to be important for Tele2 to move into more infrastructure based operations. The recent developments highlight this rationale as we move swiftly towards mobile and broadband services based on our own infrastructure."

Lars-Johan Jarnheimer President and CEO of Tele2 AB

### Tele2 in brief

**TELE2 IS EUROPE'S LEADING ALTERNATIVE TELECOM OPERATOR.** Tele2's mission is to provide cheap and simple telecoms for everyone in Europe. Tele2 always strives to offer the market's best prices. We have 29 million customers in 22 countries. Tele2 offers fixed and mobile telephony, broadband, data network services and cable TV. Ever since Jan Stenbeck founded the company in 1993, it has been a tough challenger to the former government monopolies and other established providers. Tele2 has been listed on the OMX Nordic Exchange since 1996. In 2006 we had operating revenue of SEK 50.3 billion and we reported a operating profit (EBITDA) of SEK 5.7 billion.

# **GROUP FINANCIAL OVERVIEW FOR THE QUARTER ENDED MARCH 31, 2007**

### FINANCIAL HIGHLIGHTS FOR THE QUARTER ENDED MARCH 31, 2007

<sup>1)</sup> Less Tele2 France fixed telephony and broadband operations (see Note 7)

### Significant events in the quarter

- > Tele2 has signed an MVNO (Mobile Virtual Network Operator) agreement with TDC in Sweden that is expected to come into effect in early 2008 with a validity term of five years.
- > The contemplated divestment of Tele2's French fixed and broadband business has not yet been approved by the EU competition authorities. It is estimated that the sale will close during 2007.
- > Tele2 divested 100 percent of the shares in its Norwegian subsidiary Datametrix AS to Ignis ASA.
- > Tele 2 has sold all shares in Tele2 Netherlands B.V. and Tele2 Belgium N.V. to Versatel Telecom International N.V. as a part of the integration process between the companies.

The fixed and broadband operations in France are reported as discontinued operations and the comments below relate to Tele2's continuing operations, except for changes in working capital.

#### FINANCIAL OVERVIEW

As in previous quarters the Group's financial performance reflects an increased focus on broadband and mobile services. Mobile telephony and broadband sales continue to grow compared with the previous year, while fixed telephony sales are declining. Earlier quarters had shown some signs of stabilization in continental fixed telephony services. However, this trend is not expected to continue.

Mobile operations continue to show strong development, with operating revenue increasing by 29 percent compared with Q1 2006. Mobile net customer intake was 747,000 (909,000). EBITDA increased by 46 percent to SEK 1,088 million compared with SEK 746 million in Q1 2006. Swedish mobile telephony reported revenue growth of 8 percent and an EBITDA margin of 36 percent, in combination with a positive customer intake. The EBITDA margin in Sweden was once again affected by increased net intake of post-paid subscribers. In Russia Tele2 continued its strong customer growth and Russia's EBITDA improved by SEK 275 million compared with Q1 2006. Russia also reported an impressive increase of 135 percent in operating revenue, of which 126 percent was organic. The number of customers in Russia has now reached 7.1 million, an increase of 81 percent on the previous year, and together with the Baltic countries and Croatia the market area has a user base of 10.8 million. Revenue growth for the Baltic region was strong at 19 percent compared with Q1 2006 and all 3 countries had double digit sales growth. The strong revenue growth was driven mainly by a larger subscriber base, but also higher ARPU. EBITDA for the Baltic region grew 25 percent compared with Q1 2006, mainly due to revenue growth and lower sales and marketing expenses. Mobile ARPU for the group in Q1 2007 was SEK 107 (112). The ARPU dilution is largely due to the very strong growth in Russia. The Croatian business is still seeing a delay in the rollout of its own network, which has resulted in higher roaming charges than expected.

Fixed line resale revenues decreased by 6 percent compared with the previous quarter. Fixed line services have been negatively effected by lower mobile pricing, especially in Central Europe, leading to an accelerating volume migration from fixed to mobile services. EBITDA increased by SEK 13 million to SEK 649 million, compared with the previous quarter, which is equivalent to an EBITDA margin of 13.5 percent (14.1 percent, including France). The stable EBITDA development was driven by the Nordic market area, while Central and Southern Europe saw a deterioration of profitability because of higher net customer outflow together with lower fixed-to-mobile calling volumes. The number of customers fell by 720,000 in Q1 2007.

Broadband resale revenues increased by 5 percent compared with the previous quarter and the number of customers rose by 44,000 to 852,000. EBITDA decreased by SEK 21 million, compared with the previous quarter, to SEK –231 million.

Direct access & LLUB revenues increased by 9 percent compared with the previous quarter and the number of customers rose by 210,000 to 1,200,000 customers, with Italy once again being especially successful in adding new customers. EBITDA fell by SEK 45 million to SEK –119 million, compared with the previous quarter due to a continued marketing push in selective geographies.

### **OPERATING REVENUE**

**Operating revenue** amounted to SEK 12,837 (12,243) million, an increase of 4.9 percent including, and 7.4 percent excluding, exchange rate differences.

**Nordic** showed a promising revenue increase of 5 percent compared with Q1 2006. Mobile telephony in Norway and Denmark continued to show healthy growth with a year on year increase of 23 percent. Operating revenue in Sweden increased by 7 percent compared with Q1 2006.

Revenue growth in **Baltic & Russia** was 57 percent in Q1 2007, with Russia again the prime driver. The increase excluding Russia was 18 percent.

**Central Europe** revenues fell 19 percent impacted by the disposal of the operation in the Czech Republic, a decreasing customer base and lower ARPU as a result of intensified fixed to mobile migration while **Southern Europe** increased revenues by 7 percent. Southern Europe's broadband and mobile telephony revenues rose by SEK 113 million compared with previous quarter.

**UK & Benelux** revenues decreased by 6 percent mainly due to poor development in Belgium, Alpha and C<sup>3</sup>. Fixed telephony revenues decreased by 10 percent compared with the previous quarter, while broadband and mobile telephony rose by SEK 21 million.

#### **CUSTOMER INTAKE**

**Net customer intake** (not including disposals) was 281,000, compared with 953,000 in the previous quarter and 617,000 in Q1 2006. Mobile intake was 747,000, compared with 909,000 in Q1 2006, mainly driven by Russia. The total broadband customer intake was 254 000, compared with 253 000 in the previous quarter and 144 000 in O1 2006.

The number of fixed telephony customers fell by 720,000 compared with a drop of 436,000 in Q1 2006. The development in Tele2's fixed line base is not satisfactory and has been negatively impacted by both a higher level of competition as well as lower mobile prices in Continental Europe, leading to lower calling volumes and customers migrating from the Tele2 fixed line network.

Broadband resale customers increased by 44,000 compared with the Q1 2006 figure of 99,000, and direct access & LLUB customers increased by 210,000, compared with 45,000 in Q1 2006. Italy in particular showed a sustained strong intake. Tele2's improved processes in connecting new broadband customers have continued to generate results and the intake of direct access & LLUB has continued to be robust.

As a way of standardizing reporting both internally and externally, Tele2 has decided to change its accounting principles for inactive customers in its Nordic mobile prepaid base. As of Q2 2007, Tele2 will look upon a customer as inactive if the customer has not used their mobile service in 6 months, instead of earlier 13 months. However, the customer will still be able to use their SIM card within the 13 months period, as before. This will result in a one time negative adjustment in the Nordic market area of approximately 900,000 customers in Q2 2007.

#### **ARPU**

**ARPU** amounted to SEK 138, compared with SEK 143 in Q1 2006. Mobile ARPU was SEK 107 (112), fixed telephony resale ARPU SEK 138 (145), broadband resale ARPU SEK 231 (251) and direct access & LLUB ARPU was SEK 514 (661) in the quarter.

### **EARNINGS**

**EBITDA** amounted to SEK 1,488 million, compared with SEK 1,466 million the previous quarter and SEK 1,221 million in Q1 2006.

**Nordic** reported EBITDA of SEK 798 million, compared with SEK 869 million in Q1 2006. Swedish mobile telephony achieved an EBITDA margin of 36 percent compared with 44 percent in Q1 2006 and EBITDA of SEK 601 million, compared with SEK 682 million in Q1 2006. The capacity payment to Svenska UMTS-nät was SEK 21 million. Swedish fixed telephony reported an EBITDA of SEK 137 million compared with SEK 130 million in Q1 2006.

**Baltic & Russia** reported EBITDA of SEK 567 million compared with SEK 217 million in Q1 2006. Russia's contribution to the improvement was SEK 275 million, with an EBITDA margin of 28 percent, compared with 5 percent in Q1 2006. In Croatia the operational issues still remain with high dependency on national roaming agreement, which has led to a negative EBITDA of SEK 81 million during the quarter.

**Central Europe** reported EBITDA of SEK 91 million, compared with SEK 212 million in Q1 2006. In both Germany and Austria, fixed line usage has been hit by dropping prices on the mobile market, fuelling fixed-to-mobile substitution. Lower fixed-to-mobile calling volumes has had a negative effect on profitability.

**Southern Europe** reported a loss of SEK -232 million, compared with SEK -207 million in Q1 2006. The broadband operations showed a negative EBITDA development because of Tele2's continued marketing push in the market area. The mobile telephony operation in France had a negative impact of SEK 129 million on EBITDA, compared with a negative SEK 164 million in Q1 2006.

UK & Benelux reported EBITDA of SEK 249 million, compared with SEK 122 million in Q1 2006.

EBIT was SEK 380 million, compared with SEK 254 million in Q1 2006.

Profit before tax amounted to SEK 104 (121) million.

Profit for the period amounted to SEK 82 (143) million.

### **CASH FLOW AND CAPEX**

Cash flow stated as **EBITDA less CAPEX** amounted to SEK 307 (43) million. Current investments (CAPEX) amounted to SEK 1,181 (1,178) million.

Changes in working capital, for the total operations including discontinued operations in France, amounted to SEK –250 (–577) million.

### **OPERATIONAL REVIEW BY MARKET AREA**

Comments below relate to Tele2's continuing operations

#### NORDIC

(Sweden, Norway and Denmark)

SEK Million	Q1 2007	Q1 2006	Change
Operating revenue	3,874	3,698	+5%
EBITDA	798	869	-8%
EBIT	514	618	-17%
ARPU (SEK)	205	195	+5%

Tele2's mobile operations showed good progress in Q1 2007.

customers in its Nordic mobile prepaid base. As of Q2 2007, Tele2 will look upon a customer as inactive if the customer has not used their mobile service in 6 months, instead of earlier 13 months. However, the customer will still be able to use their SIM card within the 13 months period, as before. This will result in a one time negative adjustment in the Nordic market area of approximately 900,000 customers in Q2 2007.

Revenue growth for market area Nordic was 12 percent compared with Q1 2006, and for Sweden it was 8 percent. Tele2 has seen a positive customer trend, with a net intake of 48,000 postpaid subscriptions in Sweden. Norway has seen continued strong customer intake. In total, Swedish mobile had a customer base of 3,525,000 (3,507,000) as at March 31, 2007. ARPU for mobile telephony in Sweden, including both postpaid and prepaid customers, was SEK 157 (146) in Q1 2007, and mobile minutes of usage (MOU) were 146 (123). The EBITDA margin for mobile telephony in Sweden

During the quarter, Optimal Telecom introduced Parlino, a new prepaid card with free on net calling to Telia Mobile, Halebop, Tele2 and Parlino.

decreased to 36 percent compared with 44 percent in Q1 2006,

partly as a result of the strong intake of postpaid customers.

As a way of standardizing reporting both internally and externally, Tele2 has decided to change its accounting principles for inactive

The market area's **fixed telephony** revenue demonstrates alignment with the sector's expected overall decline. An exception to this is Tele2 Sweden's sales development within the smaller corporate customer segment, which during the quarter had a positive net customer intake.

Profitability improved in all Nordic countries. Fixed telephony EBITDA margin increased to 18 percent, partly as a result of efficiency measures and continuous cost control.

Broadband customer intake in Sweden has developed according to expectation. The rollout of Tele2's own broadband network, which now covers 35 percent of the households, together with the acquisition of E.ON Bredband has had a positive effect on revenue growth. However, profitability is negatively impacted by the company's current broadband push in Sweden. Tele2Vision has seen a pick up in the number of customers adding broadband to their existing cable TV subscriptions.

### **BALTIC & RUSSIA**

(Estonia, Latvia, Lithuania, Russia and Croatia)

SEK Million	Q1 2007	Q1 2006	Change
Operating revenue	2,072	1,316	+57%
EBITDA	567	217	+161%
EBIT	371	99	+275%
ARPU (SEK)	66	65	+2%

Russia showed yet another strong quarter with a net intake of 644,000 mobile telephony customers. Operating revenue increased by 135 percent to SEK 1,052 (448) million. Despite record high customer intake in the Russian market, EBITDA improved significantly to SEK 297 (22) million. This corresponds to an EBITDA margin of 28 (5) percent. 11 out of a total of 17 regions are today EBITDA positive. ARPU for Russia was SEK 52 (42) in Q1 2007. More attractive pricing plans have led to better customer intake and together with improved network quality, Tele2 has experienced lower churn and higher MoU. Tele2 however expects competition to gradu-

In the Baltic area, Tele2 continues to take share in the corporate market. In Lithuania Tele2 has been able to capture 11 percent of the corporate market. Focus has been on growing the business while still producing improving operational margins. Revenue growth for the Baltic region was strong at 19 percent compared with Q1 2006 and all 3 countries had double digit sales growth. The strong revenue growth was driven mainly by a larger subscriber base, but also higher ARPU. EBITDA for the Baltic region grew 25 percent compared with Q1 2006, mainly due to revenue growth and lower sales and marketing expenses.

In Croatia, revenue grew by 19 percent compared with Q1 2006. However, the issues still remain in the region with regards to Tele2's dependency on national roaming agreements instead of running all traffic on the Tele2 network, which has lead to EBITDA development below expectations. Going forward, the focus will be on developing the Tele2 GSM network to minimize the dependency on roaming partner. By doing so, it will also be possible to better monitor service quality and manage customer churn.

### **CENTRAL EUROPE**

(Germany, Austria, Poland and Hungary)

ally increase in the fast growing Russian market

SEK Million	Q1 2007	Q1 2006	Change
Operating revenue	1,803	2,222	-19%
EBITDA	91	212	-57%
EBIT	-18	99	-118%
ARPU (SEK)	96	108	-11%

In Austria, competition within **mobile telephony** has further increased, as all operators have entered a price war in the discount segment, with flat-fee offers as low as 4.9 eurocents. As a niche player in this environment, Tele2 has not been able to defend its market share.

In both Germany and Austria, fixed line usage has been hit by dropping prices on the mobile market as well as

increased fixed line competition, fuelling fixed-to-mobile substitution and negatively impacting the customer base. Tele2 Germany has confirmed its number one position on the CPS (carrier pre-select) market. In Poland, Tele2, as the first alternative operator, has successfully launched a WLR (Wholesale Line Rental) product, having already captured over 150,000 customers.

While preparing to launch **LLUB** in the second quarter of 2007, Tele2 Germany has continued building its **broadband resale** customer base by launching its "Turbopaket" campaign, which claims price leadership in the high speed segment. Net intake for broadband resale in Germany grew by more than 30 percent in comparison with Q1 2006. In Austria, the residential LLUB product, both single and double play, is growing rapidly with revenues and customer base more than doubling in comparison with Q1 2006.

### **SOUTHERN EUROPE**

(Frankrike, Italien, Spanien, Schweiz och Portugal)

SEK Million	Q1 2007	Q1 2006	Change
Operating revenue	2,727	2,548	+7%
EBITDA	-232	-207	
EBIT	-370	-314	
ARPU (SEK)	184	170	+8%

Tele2's **mobile telephony** network rollout in Switzerland is progressing according to plans and license agreement, and today covers 95 percent of the population in Zurich, 50 percent in

Basel and over 20 percent in other major cities. A prepaid offer was launched in March with good customer response.

Tele2 is maintaining its number one MVNO position with its post-paid services in France.

During the quarter, the European competition authorities opened a phase II study regarding the contemplated disposal of Tele2's French **fixed** and broadband businesses to SFR. The deal is estimated to close during 2007.

In Portugal, Tele2's WLR offer has met very positive customer response.

The Italian market has continued to develop strongly with a high intake of both **broadband resale** as well as **direct access & LLUB** customers. Up-selling from Single Play to Double Play and migration to Tele2 Italy's own network has significantly expanded gross margins over the past 3 quarters, from –93 percent O3 2006 and 27 percent in O4 2006 to 52 percent Q1 2007. The expectation is to reach a longer term gross margin of 60 percent in Italy. The Italian business has completed the first phase of its planned broadband network rollout, now covering more than 40 percent of Italian households, and is now moving for further expansion in order to reach a coverage of over 50 percent.

Tele2 Spain continues to expand its broadband network coverage, having already reached 50 percent of residential and 60 percent of business customers by Q1 2007, while at the same time upgrading existing network to ADSL 2+ standards, thus allowing high speed connections of up to 20 Mbit/s.

Tele2 Portugal launched its LLUB services in mid-January. With over 120 sites installed the company covers in excess of 85 percent in Lisbon and Porto. The first months signified a strong interest from customers and Tele2 expects good volumes in Q2 and onwards.

### **UK & BENELUX**

(the Netherlands, Belgium, Luxembourg, Liechtenstein, C³ and Alpha Telecom)

SEK Million	Q1 2007	Q1 2006	Change
Operating revenue	2 170	2 315	-6%
EBITDA	249	122	+104%
EBIT	-117	-240	
ARPU (SEK)	295	257	+15%

In the Netherlands, Tele2 is displaying a positive intake trend of postpaid **mobile telephony** subscriptions partially offsetting the decline of prepaid subscribers. In Luxembourg, the focus

remains on the postpaid product for both the residential and the business segment. Postpaid net intake for Q1 2007 was 17 percent higher compared with Q1 2006. On the prepaid market Luxembourg confirmed its market leader position with a market share of over 50 percent.

In the Netherlands and Belgium, Tele2 continued migrating customers from narrowband to **broadband** products. While the majority of Tele2's broadband intake in the Netherlands is on the dual play product "Tele2 Compleet", the company is also migrating existing dual play customers to the triple play package. During Q1 2007, content revenues continued to increase in the Netherlands as a result of the distribution agreement with KPN regarding the broadcasting of live football matches. In Belgium, the Tele2 "All in" product continues to grow, where the customers reap the benefit of canceling the monthly line subscription and saving over 200 EUR on an annual basis. In Luxembourg, the wholesale DSL product is steadily expanding its customer base, with Tele2Tango already being the third largest broadband provider in the country.

### **SERVICES**

(3C, Datametrix, Procure IT right, Radio Components and UNI2)

SEK Million	Q1 2007	Q1 2006	Change
Operating revenue	191	144	+33%
EBITDA	15	8	+88%
EBIT	0	-8	

On March 31, 2007, Tele2 divested its operation Datametrix in Norway (see Note 6).

### OTHER ITEMS

#### **ACQUISITIONS AND DIVESTMENT**

On March 31, 2007, Tele2 divested its operation Datametrix Norway for SEK 85 million. Datametrix Norway has affected Tele2's operating revenue in market area Services year-to-date by SEK 116 (69) million and EBITDA by SEK –1 (0) million in addition to a recorded capital loss of SEK 5 million.

On March 20, 2007, Tele2 announced that the contemplated disposal of its fixed and broadband operations in Tele2 France to SFR had been subject to a phase II study by the European competition authorities. The anticipated divestment is estimated to close during 2007. The divestment has been reported separately as a discontinued operation in the income statement, with retrospective application for previous periods, and in the balance sheet from September 30, 2006 according to IFRS 5 – *Non-current assets held for sale and discontinued operations.* For additional information regarding discontinued operations, see Note 7.

On March 6, 2007, Tele2 sold the shares in Tele2 Netherlands and Tele2 Belgium to Versatel Telecom International N.V. The reorganization has been carried out as a part of the integration process of Tele2 and Versatel operations in the Netherlands and Belgium. Versatel has financed the acquisition by an issue of new shares. As a result of the issue Tele2 has increased its share holdings in Versatel by 1.36 percent and is now holding 81.65 percent of the shares.

Please refer to Note 6 for additional information regarding acquisitions and divestments.

#### **PARENT COMPANY**

The parent company, Tele2 AB, reported at March 31, 2007 an operating revenue of SEK 7 (7) million and a profit before tax (EBT) of SEK –397 (57) million. EBT is mainly affected by fluctuations of exchange rate effects from external loan facilities, which is reported directly in equity on group level. Tele2 AB had cash and cash equivalents of SEK 8 million compared with SEK 7 million as at December 31, 2006.

As a result of 193,347 warrants being exercised during 2007, Tele2 has issued new shares resulting in an increase of shareholders' equity of SEK 12 million.

### **COMPANY DISCLOSURE**

### Tele2 Annual General Meeting 2007

The 2007 Annual General Meeting will be held at 1.30 pm on May 9, 2007, at the Skandia cinema, Drottning-gatan 82, Stockholm.

Shareholders who wish to participate at the Annual General Meeting must have their names entered in the register of shareholders maintained by VPC AB (the Swedish Central Securities Depository) on Thursday, 3rd May, 2007 and notify the company of their intention to participate by no later than 3.00 p.m. on Thursday, 3rd May, 2007. The notification can be made on the company's website, www.tele2.com, by telephone +46-433-747 56 or in writing to the company.

### Other

Tele2 will release the financial and operating result for the period ended June 30, 2007 on July 25, 2007.

Stockholm, April 25, 2007 Tele2 AB

Lars-Johan Jarnheimer President and CEO, Tele2 AB

### Report review

The financial and operating results for this interim report have not been subject to specific review by the Company's auditors.

### Presentation details

A presentation to discuss the results will be held at 06.45 am UK time (07.45 am CET on April 25, 2007) at Pontus by the Sea, Tullhus 2 – Skeppsbrokajen, Stockholm. The presentation will be web-cast on Tele2's website www.tele2.com, along with the presentation material.

### Conference call details

A conference call to discuss the results will be held at 15.00 (CET) / 14.00 (UK time) / 9.00 am (New York time), on April 25, 2007. The dial-in number is: +44 (0)20 7138 0808 or US: +1 718 354 1357. Please dial in 10 minutes prior to the start of the conference call to allow time for registration. A recording of the conference call will be available for 10 days after the call on: +44 (0)20 7806 1970 or US: +1 718 354 1112 with access code 3350486#. The conference call will be web-cast on Tele2's website www.tele2.com, with the possibility to enter questions online.

**TELE2 IS EUROPE'S LEADING ALTERNATIVE TELECOM OPERATOR.** Tele2's mission is to provide cheap and simple telecoms for everyone in Europe. Tele2 always strives to offer the market's best prices. We have 29 million customers in 22 countries. Tele2 offers fixed and mobile telephony, broadband, data network services and cable TV. Ever since Jan Stenbeck founded the company in 1993, it has been a tough challenger to the former government monopolies and other established providers. Tele2 has been listed on OMX Nordic Exchange since 1996. In 2006 we had operating revenue of SEK 50.3 billion and we reported a operating profit (EBITDA) of SEK 5.7 billion.

### NOTES

#### **ACCOUNTING PRINCIPLES AND DEFINITIONS**

The interim report has been prepared in accordance with IAS 34.

From January 1, 2007, IFRS 7, amendent to IAS 1 and IFRIC 7, 8, 9 and 10 is applied. These have had no effect. Tele2 has, in all other respect, reported its interim report in accordance with the accounting principles and calculation methods used in the 2006 Annual Report, Definitions are found in the 2006 Annual Report.

### **NOTE 1** Operating revenue

Operating revenue from Q4 2004 and onwards for Tele2 in Sweden includes SEK 24 million per quarter relating to mobile telephony according to the MVNO agreement with Telenor. The capacity swap in the agreement is viewed on group level as exchange of transactions between Tele2 and Telenor, where revenues from the swap are settled against costs.

### **NOTE 2** Operating expenses

Tele2 on an annual basis conducts price negotiations in all markets and retroactive adjustments are a natural part of Tele2's business. The adjustment in Q3 and Q4 2006 was nevertheless greater than normally occurs and concentrated in certain market areas. In Q4 2006, the costs were reduced by SEK 50 million for the market area Nordic as a result of price negotiations with another operator and in addition the costs were increased by SEK 47 million for the market area Southern Europe as a result of settlements of disputes. In Q3 2006 the costs were reduced by SEK 43 million for the market area UK & Benelux as a result of a settlement with another operator of SEK 95 million and estimated future unused part of leased premises of SEK 52 million.

#### DEPRECIATIONS/AMORTIZATIONS AND WRITE DOWNS

In Q3 2006, Tele2 reported a goodwill write-down of SEK 3,300 million, of which SEK 1,863 million related to Central Europe, SEK 937 million to Southern Europe and SEK 500 million to UK & Benelux. In Q4 2005, market area UK & Benelux reported a goodwill write-down of SEK 263 million in Alpha Telecom.

### **NOTE 3** Other operating revenues

In Q2 2006, market area Central Europe reported a capital gain from the divestment of Tele2's operations in the Czech Republic, corresponding to SEK 50 million, after a minor adjustment in Q3, 2006.

In Q4 2005, market area UK & Benelux reported a capital gain from the divestment of Tele2's operations in the UK and Ireland, corresponding to SFK 137 million.

### **NOTE 4** Number of customers

Until September 30, 2005 a fixed telephony customer also using Tele2's dial-up internet service, was reported as two customers. Given that a reported direct access & LLUB-customer can use up to three different services, Tele2 as of October 1, 2005 reports a fixed telephony customer using dial-up internet, as one customer. In Q4 2005, the one-time effect, in continuing operations, from this change was a decrease in the reported customer base of 1,329,000 customers, of which 616,000 were in Nordic, 1,000 in Baltic & Russia, 315,000 in Central Europe, 344,000 in Southern Europe and 53,000 in UK & Benelux.

As a way of standardizing reporting both internally and externally, Tele2 has decided to change its accounting principles for inactive customers in its Nordic mobile prepaid base. As of Q2 2007, Tele2 will look upon a customer as inactive if the customer has not used their mobile service in 6 months, instead of earlier 13 months. However, the customer will still be able to use their SIM card within the 13 months period, as before. This will result in a one time negative adjustment in the Nordic market area of approximately 900,000 customers in Q2 2007.

### NOTE 5 Shares and convertibles

The Board proposes to the Annual General Meeting to resolve on a dividend to the shareholders of SEK 1.83 per share (corresponding to SEK 814 million at March 31, 2007). The total dividend paid will depend on the redemption of options up to the record day. As a result of 193,347 warrants being exercised during Q1 2007, Tele2 has issued new shares resulting in an increase of shareholders' equity of SEK 12 million.

### NOTE 6 Business acquisitions and divestments

Acquisitions and divestments of share and participations affecting cash flow refer to the following:

SEK million	Jan 1- Mar 31, 2007
Acquisition of minority interest in Versatel	-11
Other cash flow changes in shares and participations	-9
Divestment Datametrix Norway	108
Cash flow effect of acquisitions and divestments in shares and participations	88

### TELE2 NETHERLANDS AND TELE2 BELGIUM (UK & BENELUX)

On March 6, 2007 Tele2 sold the shares in Tele2 Netherlands and Tele2 Belgium to Versatel Telecom International N.V. The reorganization has been carried out as a part of the integration process of Tele2 and Versatel operations in the Netherlands and Belgium. Versatel has financed the acquisition by an issue of new shares. As a result of the issue Tele2 has increased its shareholdings in Versatel by 1.36 percent and is now holding 81.65 percent of the shares.

#### OTHER ACQUISITIONS

On February 1, 2007 Tele2 acquired by new share issue, the remaining 0,03 percent in Comunitel, Spain.

#### **DIVESTMENTS**

On October 3, 2006 Tele2 announced that the fixed and broadband business in France has been sold to SFR. The agreement is subject to clearance from the EU competition authorities. The divestment is estimated to be finalized during 2007. See Note 7 for details

On March 31, 2007, Tele2 divested its operation Datametrix in Norway for SEK 85 million. Datametrix AS has affected Tele2's operating revenue in market area Services year-to-date by SEK 116 (69) million and net profit by SEK 2 (-1) million in addition to a capital loss recorded of SEK 5 million.

Since the divested operation above, do not constitute a significant part of the Tele2's result and financial position, disclosure in the income statement has not been done according to IFRS 5 Non-current assets held for sale and discontinued operations. Assets, liabilites and contingent liabilities included in the divested operation:

SEK million	Net assets at the time of divestment
Goodwill	56
Tangible assets	3
Material and supplies	23
Current receivables	88
Cash and cash equivalents	20
Exchange rate difference in shareholders' equity	1
Long-term liabilities	-43
Short-term liabilities	-58
Divested net assets	90
Capital loss	-5
Sales price	85
Payment from acquirer for receivable in divested operation	43
Less: cash in divested operation	-20
EFFECT ON GROUP CASH AND CASH EQUIVALENTS	108

The table below shows the effect of the divested companies on Tele2's operating revenue and result, had they been divested at January 1, 2007.

Jan 1 – Mar 31	Tele2 Group <sup>1)</sup>	Excluding divested companies	Tele2 Group pro forma
Operating revenue	12,837	-116	12,721
Net profit/loss	82	3	85

<sup>1)</sup> less the fixed and broadband business in France since reported as discontinued operations.

### NOTE 7 Discontinued operations

On October 3, 2006 Tele2 announced the divestment of its fixed and broadband operations in Tele2 France to SFR for approximately SEK 3.3 billion on a debt free basis. Tele2's French mobile business is retained by Tele2. The agreement is subject to clearance from the EU competition authorities and the sale is estimated to close during 2007.

In Q3 2006, a goodwill write-down of SEK 1.5 billion affected results from discontinued operations. This was attributable to the estimated capital loss on the sale, excluding a reversal of exchange rate differences associated with the French operation and was recognized directly in equity. The expected positive currency effect will be reported in the results when the sale is completed. Q1 2007 includes an additional goodwill write-down of SEK 40 million.

Tele2 has successfully marketed fixed line telephony in France since 1998, creating a very profitable business. As the French market is consolidating, Tele2 has decided that selling the fixed line and broadband businesses to SFR is the best way to maximize the value of these businesses.

The divestment has been reported separately as discontinued operations in the income statement, with retroactive effect for previous periods, and in the balance sheet from September 30, 2006 according to IFRS 5-Non-current assets held for sale and discontinued operations.

The result etc. from discontinued operations, formely reported in market area Southern Europe, is presented below.

### 3G COMPANY IN SWEDEN

Tele2 and TeliaSonera each own 50 percent of Svenska UMTS-nät AB, which has a 3G license in Sweden. Both companies have contributed capital in the 3G company. In addition to this, the build out has external financing, with a loan facility of SEK 4.8 billion, which is 50 percent guaranteed by each party. Tele2 and TeliaSonera are technically MVNO's with the 3G company and hence act as capacity purchasers. The size of the fee is mainly proportional to the total investment. An abbreviated version of Svenska UMTSnät balance sheet is stated below and hence the level of investment at that time. At March 31, 2007 Tele2's guarantee amounted to SEK 1,694 million (December 31, 2006: SEK 1,685 million).

### **PLUSNET IN GERMANY**

Tele2 owns 32.5 percent of Plusnet GmbH & Co KG and QSC owns 67.5 percent, although both parties have joint control. Tele2 has paid in approx. SEK 0.5 billion and QSC has contributed Unbundled Local Loop (ULL) networks in Germany. Tele2 has provided a bank guarantee of SEK 47 million as security for Plusnet. Both companies act as purchasers of capacity. As the company is not a profit-seeking entity, its fixed costs are shared between Tele2 and QSC, and its variable costs are distributed proportionately in relation to use. An abbreviated version of Plusnets balance sheet is stated below and hence the level of investment at that time.

BALANCE SHEET	Mar 31,	Mar 31, 2007
