## **PRESS RELEASE**

# **Tele2 invests in its Croatian mobile network**

**Stockholm - Tele2 AB (Tele2), (NASDAQ OMX Stockholm: TEL2 A and TEL2 B) today announced investments into its Croatian mobile network. The investments are focused on making 3G available on all sites across the network, as well as adding additional sites to improve the population coverage.**

As a result of solid customer growth and improved profitability, Tele2 now declares a new investment cycle for its operations in Croatia. The network upgrade will be done in partnership with Huawei and the selected Single-RAN Wireless network solution is flexible and future-proof. It enables upgrades of capacity and speeds as well as the possibility of future extension into 4G.

Niklas Sonkin, EVP Central Europe and Eurasia at Tele2 AB, comments: "In December, Tele2 Croatia secured an additional 15 MHz of spectrum in the 1800 MHz band. The announced investment into new 3G technology comes as a natural next step and will bring our customers substantial improvements in terms of coverage and network quality. This at a time when the smartphone penetration and data usage in Croatia is set to grow significantly."
