Com Hem
An operator in change

Anders Nilsson, CEO
Mikael Larsson, CFO
Key growth drivers

Continued progress in Q2

1. Increased customer satisfaction
   - A very low churn increase of 0.4 p.p during a quarter with price changes reaching 50% of the customer base reflects a rapid and positive development in customer satisfaction.

2. Drive DTV penetration with Superior DTV product
   - Digital TV grew by 2,000 to 627,000 RGUs, TiVo penetration reaches 33.0% with 204,000 RGUs.

3. Leverage network and speed advantage
   - Broadband subscriber base grew by 8,000 net additions to a record high of 637,000 RGUs.

4. Capitalize on unique bundle opportunity
   - Steady increase of bundles, now representing 50.9% of customer base (50.7% in Q1).

5. Leverage B2B opportunity
   - Continued transformation of Phonera with focus on higher margin on-net sales and SME. OnNet B2B customers grew by 3,000 during quarter.

Guidance
- To grow revenue of the overall business in the mid-single digits year-on-year.

Well positioned for growth
Yield growth ahead
Improving financial flexibility

1. Revenue growth increases underlying EBITDA

2. CAPEX stable, declining as% of revenue

3. Reduced interest expenses. Will come down from 4.5% to approx. 3.5% after the refinancing in Q4 2015

4. No taxes to be paid until tax losses fully utilized (2.85 bn SEK per 30 June)

Guidance
- The underlying EBITDA margin is expected to soften slightly due to a shift in business mix.
- Capital expenditures as a percentage of revenue is expected to decline to a level that is more in line with the industry average.
- Target leverage of 3.5x to 4.0x LTM underlying EBITDA.

Cashflow growth is outperforming EBITDA growth, which gives possibility to increase debt and still be within target leverage. This results in more room for shareholder remuneration in cash and/or buybacks.
Increased customer satisfaction enhances pricing power
Recent price changes unveil stronger pricing potential than expected

- Reduction of discounts to increase ARPU implemented during Q2, affecting approximately half the customer base.
- Full ARPU increase will be visible during H2 as price changes were rolled out gradually during Q2.
- Only modest churn increase (0.4 p.p) as a result of our focus on customer satisfaction. Resulting in all time lowest churn at 13.3%.
- Discount reductions and modest price rises will give us the opportunity for an enhanced growth strategy going forward; price and volume vs volume only.
Shifting towards a more balanced growth
From volume to a combination of volume and price-led growth

Unique consumer subscribers

</table>

- Increase in consumer revenue driven by growth in broadband and TiVo subscribers, improved broadband tier mix and price increases with gradual impact during Q2
- Landlord revenue decrease due to contract renegotiations, lower index pricing and 2014 one-off of customer migrations to B2B
- B2B OnNet shows good growth, revenue up SEK 9m Y-o-Y. However, decline in low margin OffNet SoHo legacy business

Com Hem is embracing OTT as an opportunity as opposed to threat by integrating the most popular OTT services in its platform.
Com Hem Play
The full TiVo experience on any platform anywhere

- Launched September 2015 (updated version of TiVoToGo)
- Updated user interface with easier navigation
- One-Click consumption
- Pause function for linear TV
- TV Guide with “on air & coming up next” navigation
- Part of the Com Hem TiVo experience, included in the Mid, Plus and Max subscriptions.
- Gives the customer the full TiVo experience available on all platforms (iOS, Android, webb) and devices.
Embracing OTT as an opportunity

SVOD growth is slowing down, most viewed OTT services on CH platform

Viewing time (min) among consumers per TV channel/OTT service, 15-74 yrs, Q1 2015

- Com Hem acts as an aggregator that offers different packages with the most popular channels viewed
- However SVOD growth pace is slowing down after a period of rapid growth
  - Average growth pace +5% QoQ in 2015 compared to +21% in 2014

Household penetration SVOD subscriptions

Low churn risk for Com Hem
...while increasing among competitors

- Com Hem holds the lowest risk among all operators at approx 10%.
- HHs planning to churn say they plan to switch operator, not leave the DTV market.
Sweden’s fastest broadband
Superior infrastructure vs. competition in terms of capacity and speed

➤ Well connected market with 88% broadband penetration in Sweden, HH 15-74 yrs old
➤ Over 1.9 million HH’s connected, enabling us to offer our services to 40% of Swedish HH’s
➤ Com Hem is the leading supplier of high –speed internet access in Sweden, according to Netflix speed index
  • Operates on Docsis 3.0
  • Offering up to 500 Mbit/s to appr. 1.7 million HH’s
  • Scalable and able to cope with increasing data demand with modest capex investment including 1 Gbps upgrade
➤ 76% of new customers choose speeds of 100 Mbit/s and above in Q2
➤ LAN overbuild largely completed given the largest landlords are already connected.

The best experience for the connected home
Superior wifi experience with Com Hem’s new router

A download test made by Com Hem shows that Com Hem’s new router (Compal) has a competitive advantage according to a competitor’s best router when getting the most out of your Wifi.

Com Hem’s router is the only one in Sweden that offers two frequencies (2.4 and 5), resulting in little disturbance when exposed by different obstacles.

Source: Internal test
The best experience for the connected home cont.
Four times faster Wifi upstream & downstream than competition

Another test made by an independent 3rd party, Excentis, in Holland also shows that Com Hem’s new router (Compal) delivers up to four times faster Wifi than competition (27th of January 2015)

Source: Excentis

- New senior bank debt of SEK 1 bn from DnB provided at attractive terms with four years maturity
- Following the intended early redemption of EUR bond in November, the group's average interest cost will be at approximately 3.5% (down from 4.5% in Q2)
Leverage and financing policy

- Solid financial position with:
  - Leverage in line with European peers, target range of 3.5-4.0x Net-Debt/Underlying EBITDA
  - Well capitalized with SEK 1.3bn in cash and unutilized credit facilities.
  - Average interest rate on debt portfolio of 3.5% after refinancing

- S&P BB- with positive outlook since June 2015
- Healthy mix between bank and bond financing.
- Strong support from Nordic as well as European banks. Building up recognition in SEK bond market.
- Will continue to work to extend our average debt maturity, currently at 3.7 years.
- Mix of fixed and floating interest rates on debt, currently 45% fixed before refinancing of EUR bond.
Shareholder remuneration

Redemption programme
- SEK 65m was paid to shareholders May 11, 2015 for a total of 886,221 shares that were applied for redemption

Buy-Back programme
- AGM decided to extend this year’s buy-back programme to up to SEK 1,500m (previously up to SEK 1,000m) including the SEK 65m already spent on the one-time redemption programme

Cash dividend
- SEK 1 per share in cash dividend
  - A total of SEK 412m in shareholder remuneration in Q2 consisting of cash dividend (SEK 1 per share) as well as share buybacks. As per 11th of September, shares for an additional SEK 207m had been bought back.
  - Leverage ratio to be kept within target of 3.5-4.0x underlying EBITDA
Yield growth in Com Hem

- **Increased underlying EBITDA following revenue growth.**
- **Stable in absolute amount, declining as % of revenue.**
- **Average interest cost of 3.5%**
- **Growth in underlying EBITDA enables increased leverage.**

- **Market Cap August 31st – SEK 14,600m**
- **Attractive yield available for cash dividend and/or share buy backs**

- Underlying EBITDA
  - SEK2332m*

- CAPEX
  - SEK1000-1100m*

- Reduced interest expenses
  - SEK350m**

- Cash available for shareholder remuneration with no increase in leverage
  - SEK900-1000m*

- Possibility to increase leverage

---

* Q2 2015 annualised
** Pro forma for refinancing Q4 2015
Summary & outlook

Key growth drivers – continued progress in Q2

1. Increased customer satisfaction
   - A very low churn increase of 0.4 p.p during a quarter with price changes reaching 50% of the customer base reflects a rapid and positive development in customer satisfaction.

2. Drive DTV penetration with Superior DTV product
   - Digital TV grew by 2,000 to 627,000 RGUs, TiVo penetration reaches 33.0% with 204,000 RGUs.

3. Leverage network and speed advantage
   - Broadband subscriber base grew by 8,000 net additions to a record high of 637,000 RGUs.

4. Capitalize on unique bundle opportunity
   - Steady increase of bundles, now representing 50.9% of customer base (50.7% in Q1).

5. Leverage B2B opportunity
   - Continued transformation of Phonera with focus on higher margin on-net sales and SME. OnNet B2B customers grew by 3,000 during quarter.

Yield growth ahead – improving financial flexibility

1. Revenue growth increases underlying EBITDA

2. CAPEX stable, declining as% of revenue

3. Reduced interest expenses. Will come down from 4.5% to approx. 3.5% after the refinancing in Q4 2015

4. No taxes to be paid until tax losses fully utilized (2.85 bn SEK per 30 June)

Cashflow growth is outperforming EBITDA growth, which gives possibility to increase debt and still be within target leverage. This results in more room for shareholder remuneration in cash and/or buybacks

Well positioned for growth
About Com Hem

- Founded in 1983
- Leading supplier of digital television, high-speed broadband and fixed telephony in Sweden

The hybrid-fiber-coax (HFC) network

Backbone
- Wavelength leased (Swedish Transport Administration)

Local Headend
- Equipment owned
- Colocation leased

HFC network
- Coax and equipment owned
- Last mile owned
- Fibre and ducts leased

In-house network
- Wiring owned by Landlord
- Upgraded by Com Hem
- Equipment in basement owned

Fully-invested and upgraded network
- 99% of all homes connected to national backbone
- Core network entirely IP based, 10×10 Gbit/s
- Parallel, non-conflicting services
- Redundant systems in playout and backbone

Highly cost efficient operation
- High proportion of network elements leased
- All active equipment are owned by Com Hem
- Future capex predominantly success-based
